

Zones Strengthens Logistics and Integration with ISO 9001:2015 Certification

AUBURN, Wash., April 2, 2018 — [Zones, Inc.](#), today announced that its Logistics and Integration business units have successfully fulfilled all applicable requirements of ISO 9001:2015 (International Standard for Quality Management Systems) and received certification from TUV-USA, Inc. A certified Quality Management System enables Zones to provide even greater control over its management and production processes for Logistics and Integration centers located across the United States.

ISO 9001:2015 requirements for certification include alignment of employees with objectives and key performance indicators, increased emphasis on training and ongoing communication, and active commitment from leadership. This certification aligns directly with the long-term Logistics and Integration strategy.

“The certification process for Logistics and Integration required high levels of data analysis, organizational discipline, and teamwork to build upon an already successful operation,” said Linda Marbena, Senior Vice President and General Manager of Logistics at Zones. “Standardization enables us to focus on continual business process improvement, brings additional rigor, and aligns systems that achieve measurable objectives and exceed customer expectations across all lifecycle services.”

Zones was recently named to the [Elite 150](#) as a part of the CRN Managed Service Providers (MSP) 500 list. [Zones Infrastructure, the Services Company of Zones](#) was recently announced to consolidate services business from pre- and post-sales to managed services and support. ISO certification reinforces the position of Zones as the choice provider of integrated IT solutions.
