- > Local and box-less delivery via Zones truck.

In recognition of our rigorous standards, quality control, and management processes, many of our Technology Solution Centers now hold ISO certifications.

Zones offers IT Lifecycle Management.

Zones services span the entire IT lifecycle. Whether your plans call for virtualizing the infrastructure, designing a network, rolling out unified communications, or disposing of obsolete equipment, Zones has the people and programs to make it happen.

- > Bench/rack space to configure and image up to 300 units at a time.
- > Repair center for warranty and non-warranty products.
- > Refurbishment center and OBR checking.
- > Bandwidth to support large application downloads and updates.
- > Robust wireless network to support integration of mobile devices.
- > Custom labeling, bar coding, and packaging.
- > Asset tagging and serial number reporting.
- > Secure asset retrieval and DoD disk wipes.
- > Environmentally responsible IT asset disposition services.

Zones provides a first-hand experience.

Zones gives you an in-depth look at the IT products and solutions you are considering before you make a final decision. The Northwest Technology Solution Center has solution, training, and client briefing areas where you can:

- > See how integrated solutions work in an IT environment.
- > Compare product alternatives side by side.
- > Explore the latest innovations in technology.
- > Receive training from industry-certified specialists.
