

# McAfee VirusScan Mobile Security

Proven security for mobile devices

McAfee VirusScan Mobile protects mobile devices from viruses and other malware and keeps your device secure and functional.

## Specifications

### Support

- Unlimited email support (in English only)

### Supported device operating systems

- Android 2.1 to 4.0 smartphones and tablets

McAfee® VirusScan® Mobile Security protects your mobile device by scanning and cleaning malware from files, memory cards, applications, Internet downloads, text messages, and attachments. Always-on protection identifies and removes viruses, Trojans, worms, and other malicious applications and content.

## Features and Highlights

### Comprehensive security

McAfee VirusScan Mobile is designed to provide protection at all vulnerable points. Inbound email, outbound email, text messages, applications, and Internet downloads are protected with both on-access and on-demand scanning.

- *Easy to use*—Managing protection for your mobile device should be easy. Download, set up, and activate McAfee VirusScan Mobile directly to your mobile device. It works in the background to protect your smartphone or Android tablet from the many ways malware can attack.
- *Up-to-date protection*—Get the confidence of always active, always up-to-date security with 24/7 worldwide virus outbreak monitoring provided by McAfee Global Threat Intelligence™
- *With McAfee, you don't have to worry*—McAfee VirusScan Mobile automatically updates silently in the background—and our unmatched security expertise ensures that you always have the latest protection

### The McAfee Advantage

- *Comprehensive protection*—McAfee VirusScan Mobile scans all possible ways that malware can infect your mobile device, including files, compressed files, applications, SD cards, and text messages. With more than 400 researchers and specialists, McAfee Global Threat Intelligence

delivers an integrated system approach that provides a distinct advantage in protection levels to our customers, from consumer to enterprise. All of our customers benefit from our integrated research and collective intelligence system.

- *Designed specifically for mobile devices*—McAfee VirusScan Mobile was designed for mobile devices to run with minimal memory resources, avoiding any service interruptions while protecting you against malware. With more than eight years of experience in mobile security and more than 150 million handsets protected today, McAfee VirusScan Mobile is unmatched in ease of use, low power consumption, and rapid file scanning.

### About McAfee Mobile Solutions

The three-pronged McAfee approach for protecting mobile devices, mobile data, and mobile applications is designed to help businesses and consumers manage their devices securely as the threat environment quickly evolves.
