

IT Management That's Powerful, Affordable, & Easy-to-Use!

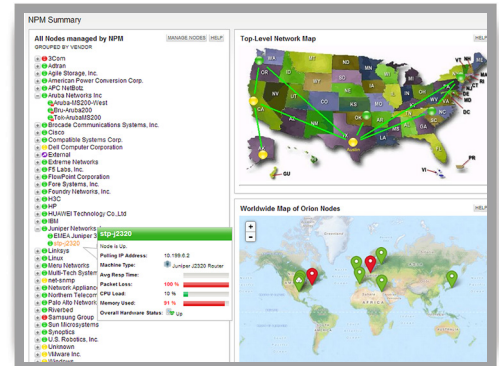

NETWORK

FEATURED NETWORK MANAGEMENT PRODUCTS:

Network Performance Monitor

Powerful Network Fault & Availability Management

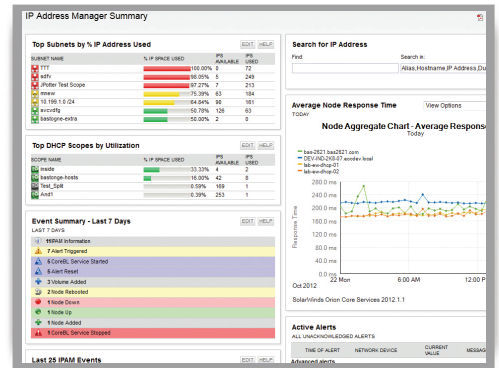

- Simplifies detection, diagnosis, & resolution of network issues – before outages occur
- Tracks response time, availability, & uptime of routers, switches, & other SNMP-enabled devices
- Shows performance statistics in real time via dynamic, drillable network maps
- Includes out-of-the-box dashboards, alerts, reports, & expert guidance on what to monitor & how
- Automatically discovers SNMP-enabled network devices & typically deploys in less than an hour

IP Address Manager

Centralized DHCP, DNS, and IP Address Management

- Streamlines IP infrastructure administration through centralized visibility & control
- Automates IP address management tasks to save time, reduce errors & increase efficiency
- Consolidates multi-vendor DHCP & DNS management for enhanced reliability & performance
- Simplifies troubleshooting via unified dashboard, real-time views & historical tracking
- Prevents network issues with automatic scans, IP conflict detection & proactive alerts

APPLICATION & SERVER

FEATURED APPLICATION & SERVER MANAGEMENT PRODUCTS:

Server & Application Monitor

Server Monitoring Made Simple – Deploy, Monitor & Resolve

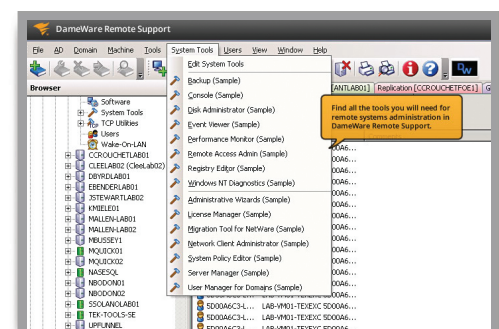

- Quickly downloads and deploys in less than an hour, is simple to use, and easy on your budget
- Multi-vendor hardware monitoring for HP® ProLiant®, IBM System x®, Dell™ PowerEdge™, blade chassis, and VMware® ESX/ESXi hosts
- Application monitoring and user experience for virtually any application—Microsoft® Exchange, Active Directory®, IIS, any ODBC database, and more
- Eliminate the guess work with expert guidance on what to monitor, why to monitor it, and optimal thresholds
- Resolve problems quickly with built-in server management to start/stop services, kill processes, and restart servers

DameWare® Remote Support

Remote Windows Administration and Desktop Remote Control

- Manage and Administer Windows machines on your network from the comfort of your desk
- Desktop remote control of Windows, Linux and OS X computers
- Remotely control Windows computers from your iPhone, iPad or Android device
- Export detailed information from remote windows computers to create inventory reports
- Manage Active Directory®, users and groups, files and directories, printers, and more
- Start, stop and restart Windows services without having to use remote control

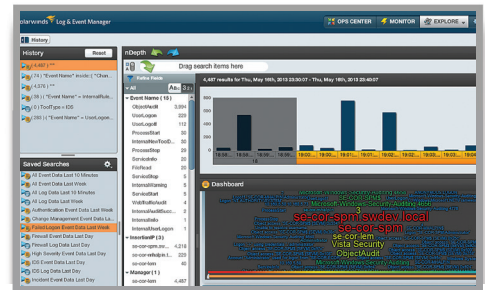

SECURITY

Log & Event Manager

Security Information & Event Management (SIEM) made Simple & Affordable

- Automatic log collection, analysis, alerting, and reporting
- Real-time event correlation for immediate threat detection
- Built-in Active Responses for automated and rapid remediation
- Advanced search capabilities for fast and easy forensic analysis
- Pre-packaged templates for simplified compliance reporting
- All-in-one virtual appliance for quick and simple deployment

About SolarWinds

SolarWinds (NYSE: SWI) provides powerful and affordable IT management software to customers worldwide from Fortune 500 enterprises to small businesses. In all of our market areas, our approach is consistent. We focus exclusively on IT Pros and strive to eliminate the complexity that they have been forced to accept from traditional enterprise software vendors. SolarWinds delivers on this commitment with unexpected simplicity through products that are easy to find, buy, use and maintain while providing the power to address any IT management problem on any scale. Our solutions are rooted in our deep connection to our user base, which interacts in our online community, thwack, to solve problems, share technology and best practices, and directly participate in our product development process.
