SOPHOS
simple + secure

Introducing our new Outlook Add-In

And new advanced mail configuration options for Email Appliances

- ‣ Use the new Add-In with any Sophos email product
- ‣ Flag messages as spam for SophosLabs
- ‣ Mark a message for encryption with a simple button press

- ‣ Enjoy the ultimate in flexibility with new mail configuration options in Email Appliances
- ‣ Gain full control over delivery groups, mail domains, address rewriting and more

Outlook Add-In

Our simple Outlook Ribbon Add-In makes email security easy.

Flag email as spam Flagged messages are immediately sent to SophosLabs for analysis.

Mark messages for encryption Toggle the Encrypt button while composing an email to send with SPX encryption.

Works better with Email Appliances The spam reporting works with any Sophos email product. Both spam and encryption features are available when you have a Sophos Email Appliance with SPX encryption.
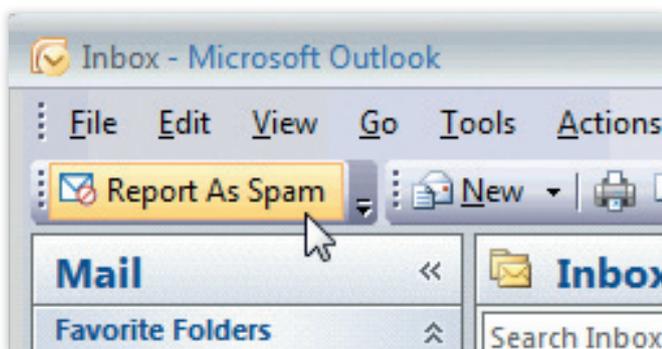

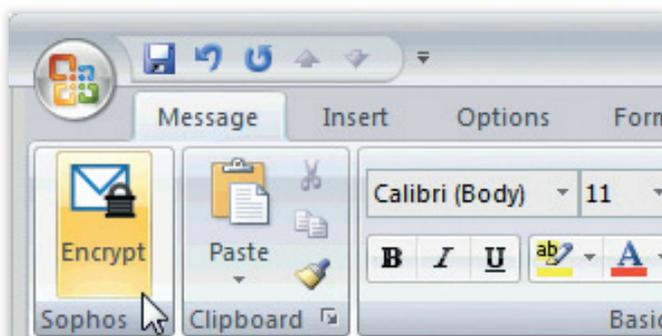

Encrypt messages with the click of a button or mark email as spam right within Outlook.

Advanced Email Configuration

We've exposed a number of new advanced email configuration options in our Email Appliances.

Email Delivery Groups Define multiple downstream email servers and assign priorities to each.

Managing multiple email domains Assign routing configuration on a per-appliance basis.

Address rewriting Translate email domains for domain masquerading or vanity addresses.

Outbound email proxy improvements Configure credentials and encryption settings for the outbound mail proxy.

Advanced SMTP options Access a ton of new settings including queue timeouts, banner customization, concurrency limits and much more.

Configuration Sync Enable automated synchronization from external systems.

Advanced email configuration options provide enhanced flexibility and fine tuning.

Try our products for free

Register for a free 30-day evaluation at sophos.com/products.

If you're an existing customer, you probably already know that you get all our software updates and upgrades free for the term of your license. It's just another benefit of being a Sophos customer.
