

ZONES™

Turn mobility into potential

Your employees expect mobility to be seamless. Your customers expect mobility to be convenient. Your C-level executives expect mobility to drive competitive advantages. With such high expectations, you expect the best technology. Turn to Zones for Dell, HP, Lenovo, Apple, Avaya, CA, Intel, and Toshiba mobile technology.

Dell mobility solutions bridge the gap between IT requirements and the promise of mobility.

Dell offers solutions across the device, applications, data, and network including:

- > Venue tablets
- > Latitude notebooks and Ultrabooks
- > KACE K1000 endpoint management
- > Dell Data Protection (DDP)
- > SonicWALL firewall and secure access
- > Wireless networking

Zones partners with Dell to help you match the best mobile strategy to your unique IT requirements, business goals, and user group needs.

Thousands of organizations use HP mobility solutions to streamline workflows, enhance productivity, deepen customer connections, and keep pace with change.

HP offers open, best-in-class solutions for every facet of mobility.

- > EliteBook business-class notebooks
- > Elite X2 2-in-1 (multimode) Ultrabooks
- > Pro x2 tablets and slates
- > Connectivity and infrastructure
- > Mobility software and apps

Let HP and Zones develop a tailored solution that includes hardware, software, strategic planning, managed mobility, and more.

Lenovo offers a range of devices suited for CYOD or BYOD programs – they appeal to users, while meeting your stringent demands for security and compliance.

- > ThinkPad notebooks and tablets
- > ThinkPad portable workstations
- > ThinkPad X1 Carbon Ultrabooks
- > ThinkPad Yoga multimode Ultrabooks
- > ThinkPad Helix multimode

From a range of mobile devices to hard drives that help prevent data damage and comprehensive power management for lower consumption, Zones delivers Lenovo products that are well positioned for enterprise mobility.
