

Zones makes IT ready for business

Zones takes care of all aspects of technology design, deployment and support to create a worry-free experience. At our company-owned Integration Centers located across the country, Zones experts in IT configuration, logistics and implementation ensure smooth rollouts of complex deployments.

Zones delivers IT through Chicago Integration Center

The Zones Chicago Integration Center is equipped to accommodate our services and the location expedites deliveries. Our experienced staff is capable of receiving, storing, processing, shipping and delivering products in a timely and cost-effective manner. And with quality control checks in place, the accuracy and completeness of the work performed is guaranteed.

- > Centrally located in Carol Stream, Illinois, within 30 miles of Chicago's O'Hare International Airport
- > Fully certified technical staff with a minimum of A+ certification
- > 151,000 square feet
- > Over 9,000 picking locations
- > 17,500 square feet of integration space
- > 14,000 square feet for handling special projects
- > Across the street from major distributors
- > Local and box-less delivery via Zones truck

Zones performs IT lifecycle services

Zones services span the entire IT lifecycle. Whether your plans call for virtualizing the infrastructure, designing a network, rolling out unified communications or disposing of obsolete equipment, Zones has the people and programs to make it happen.

- > Bench/rack space to configure and image up to 300 units at a time
- > Repair center for warranty and non-warranty products
- > Refurbishment center and OBR checking
- > Bandwidth to support large application downloads and updates
- > Robust wireless network to support integration of mobile devices
- > Custom labeling, bar coding and packaging
- > Asset tagging and serial number reporting
- > Secure asset retrieval and DoD disk wipes
- > Environmentally responsible IT asset disposition services

Zones provides a first-hand experience

Zones gives you an in-depth look at the IT products and solutions you are considering before you make a final decision. The Chicago Integration Center has solution, training and customer briefing areas where you can:

- > See how integrated solutions work in an IT environment
- > Compare product alternatives side by side
- > Explore the latest innovations in technology
- > Receive training from industry-certified specialists
