COVER3 IT ™

AXIOM

Data Center Maintenance Management All in One Place

Can You Envision One Place for all of Your OEM and TPM Contracts?

WE CAN!

Introducing Cover3IT by Axiom, a Cloud-Based Hybrid Contract Management Tool

Think Beyond the OEM™

Axiom Maintenance Services (AMS) arms you with a unique contract management tool for all of your AMS, OEM and Third-Party contracts and assets.

How Does Cover3IT Work?

It's never been easier to manage, organize and monitor your IT service contracts and assets in a centralized location for your entire organization. With an intuitive interface, multiple users can seamlessly manage contracts and assets from their desktop, smartphone or tablet. Plus, email notifications and alerts keep you worry free and up-to-date on the status of each contract, alerting you to upcoming expiration dates so you can take action.

Monitor Your IT Assets from a Single Dashboard

Grab quick insights effortlessly. The clean and organized single source dashboard makes it easy to view your assets, where they're located and when they're expiring.

View Key OEM and TPM Vendor Information for Each Asset

Asset management is made simple with the ability to view the details of each asset and upload relevant files to keep you and your team members organized.

Control Your Maintenance Assets while Reducing Costs

Have an issue arise? No problem! Cover3IT provides seamless and cost-effective support with rapid response times and ticket tracking all within the dashboard.

Your Third-Party Maintenance Solution

According to Gartner, "20% of the Fortune 500 companies use third-party hardware maintenance exclusively for their IT infrastructure. Up to 60% of the Fortune 500 companies use third-party maintenance on dedicated End-Of-Service-Life (EOSL) and legacy applications where OEM support is cost prohibitive or unavailable.[1]" Axiom Maintenance Services offers IT administrators customized and flexible hardware support while controlling and lowering IT costs.
