Are your employees requesting Mac at work? We can help.

More and more employees want the Mac® at work, and our Mac lineup has it all – from mobile solutions to powerful desktop models. With over 200 new features in OS X® Mountain Lion, compatibility with your network, and great trade-in value, no matter which Mac you choose, it's a win for your business and employees.

For more than 25 years, Zones has been integrating the powerful Mac platform into the IT infrastructures of organizations of every size and industry. Leverage this expertise and experience to offer the Mac enthusiasts in your organization the power built into every Mac – from the light and portable MacBook Air® to the powerhouse Mac Pro®.

Under a CYOD discipline, an organization authorizes employees to choose from a selection of pre-approved devices, which can include iPad®, MacBook, iMac and more. CYOD gives employees some flexibility and the empowerment of choice. Organizations maintain control over business, security and compliance.

Zones CYOD solutions and services

Formalizing a CYOD strategy ensures that it's manageable, enhances productivity, maintains security, and, of course, appeases users' expectations. As a single source provider of IT solutions and services, Zones solutions and services specialists cover the full scope of CYOD implementation and management, including:

> Comprehensive planning that ensures the CYOD strategy aligns with business objectives

> Configuration and logistics to streamline procurement, deployment and specification compliance

> Mobile device management (MDM) solutions that are capable of handling multiple device types and security levels

Authorized Reseller
