Fully Functional for 30 Days

SolarWinds® Virtualization Manager delivers integrated VMware® and Microsoft® Hyper-V® capacity planning, performance monitoring, VM sprawl control, VDI performance monitoring, configuration management, and chargeback automation - all in one awesomely affordable product that's easy to download, deploy, and use.

## Virtualization Manager at a Glance

- Provides real-time dashboards to simplify forecasting, detection, and troubleshooting of capacity bottlenecks
- Identifies VM sprawl, helps you reclaim and optimize space, and reduces licensing costs
- Tracks VM and host configurations over time, and identifies drift from your "gold standard"
- Integration with Server & Application Monitor for end-to-end application infrastructure visibility
- Gives you all the functionality and more of other leading virtualization management tools - at a fraction of the cost
- Easy to download, deploy, and use - start monitoring your VMs in less than an hour

## Features

### Heterogeneous Virtualization Management

Manage both VMware and Microsoft Hyper-V environments from a single pane of glass.

### Virtualization Performance Monitoring & Management

Proactively monitor and analyze virtualization-specific performance problems in VMware and Hyper-V environments.

### Application Monitoring Integration

Integration with Server & Application Monitor (SAM) for end-to-end application infrastructure stack monitoring and visibility.

### VDI Performance Monitoring & Management

Monitor Virtual Desktop Infrastructure (VDI) performance, quickly troubleshoot issues, and easily plan VDI rollouts.

### VM Right-Sizing & Capacity Planning

Manage, plan, and optimize VMware and Microsoft Hyper-V virtual infrastructure capacity.

### Virtualization Dashboards

Get at-a-glance insight into the performance, capacity, configuration, and usage of your virtualized infrastructure.

### VM Sprawl Control

Find stale VMs, zombie VMs, orphaned files, and over-allocated VMs.

### Virtualization Performance Alerts

Quickly discover and act on performance issues using flexible alerts and integrated recommendations.

### Virtualization Configuration Management

Track VM and host configurations over time and helps you determine if your virtual environment configuration is drifting from the gold standard.

### Virtualization Dependency Mapping & Historical Forensics

Map dependencies and perform forensic troubleshooting and problem analysis.

### Server & Application Monitor, Storage Manager, & Network Performance Monitor Integration

Get a centralized look across your entire virtual infrastructure from the VM all the way to the spindle.

### Virtualization Chargeback & Showback Automation

Govern and chargeback/showback IT, infrastructure, and cloud services.

## System Requirements

HARDWARE	MINIMUM REQUIREMENTS
CPU	4 vCPU
Memory	8GB+ RAM minimum recommended
Hard Drive	200GB+ free disk space (Thin Provisioned by default for VMware)
Other	Virtual Appliance based installation
SOFTWARE	MINIMUM REQUIREMENTS
OS	Runs on VMware vSphere™ v5.x, 4.x, or Microsoft® Hyper-V 2008/2012
Database	Integrated with Virtual Appliance

*“As a public institution, we required a management product for our virtualization infrastructure that would gather the required data and allow us to view performance and capacity statistics without needing any administrative time to maintain. I feel that this release, especially the pre-populated dashboards and the smoother interface, is an improvement over the version before. I would recommend this product strongly, especially now that Hyper-V support has been added.”*

- Brian Hatchell, network manager, Victor Valley College

NOTE: The minimum server requirements listed assume default configuration. Significantly increasing the

## Try Before You Buy. Download a Free Trial!

At SolarWinds, we offer free trials that deliver full product functionality. Simply download and install the software and take a break while Virtualization Manager auto-discovers the virtual machines in your environment. When you get back, your monitoring environment will be waiting for you - complete with out-of-the-box dashboards, alerts, reports, and more! It's just that simple! Download your free, fully-functional trial today!

## About SolarWinds

Founded in 1999, SolarWinds delivers powerful and affordable IT management and monitoring software to over 100,000 customers worldwide - from Global 1000 enterprises to small businesses. Named by Forbes as one of the top 10 fastest growing technology companies, SolarWinds is improving the way IT management software is developed, priced, purchased, delivered, and used. Our IT monitoring and management software is built for SysAdmins and network engineers who need powerful, affordable, and easy-to-use solutions that save time and simply get the job done. Evaluating, buying, deploying, and using enterprise software shouldn't be complex. IT management solutions from SolarWinds are easy to try, buy, deploy and use. That's unexpected simplicity.
