

Jive-n: The Modern Intranet Where Employees Thrive!

The Jive-n social intranet solution unites people across geographies, functions and devices and integrates with existing systems across your entire organization. It's the one-stop-shop where employees connect, share and get work done every day, from anywhere—even smartphones and tablets.

With Jive-n You Can:

- Replace a Traditional Intranet
- Modernize an Existing Intranet
- Create an Employee Community
- Implement Team Collaboration

<h1 style="font-size: 2em;">6x</h1> <p>A Leader in the Gartner Magic Quadrant 6 times in a row.</p>	<h1 style="font-size: 2em;">50%</h1> <p>Half of the top 10 Fortune Best Companies To Work For use Jive-n</p>
<h1 style="font-size: 2em;">61%</h1> <p>The average percentage of users who felt more connected to colleagues with Jive-n as their intranet.</p>	<h1 style="font-size: 2em;">80%</h1> <p>The average percentage of intranet development costs reduction when implementing Jive-n.</p>
<p>Recently awarded a patent for Jive's enterprise search capabilities</p>	

“We had to find a way to break down the silos and introduce a platform that allows staff in 28 countries to better communicate and collaborate. [With our Jive-n Social Intranet] we really hit fertile ground. We had a **97% adoption rate in four months.**”

Capabilities

Portals & Groups

Instantly launch portals or groups with customizable permissions, and populate it with the participants, content and tools needed to start collaborating immediately.

People & Expertise

Create rich people profiles by integrating with LDAP or any third-party systems to deliver a single source of profile information that enables finding experts much faster.

News Streams & Blogs

Intelligently deliver relevant corporate information and executive blog posts employees need to stay aligned, informed and engaged.

Social Search & Content Promotion

Social search capabilities and content promotion provide prioritized and recommended content based on what's important to you, your team and the projects you're working on.

Analytics & Insights

Gain meaningful insights by measuring reach and impact of every communication. Social data collected over time also powers intelligent in-context recommendations.

Integration & SDKs

Use Jive-n as a hub to connect your employees to the vital systems and information they need. Configurable integrations are available for Microsoft, Google, Salesforce, Box, Cisco and more. Jive Mobile SDK allows for seamless integration into existing corporate apps.

Support & Self-Help

Simplify support, cuts costs and enhance employee satisfaction with easy-to-use, best-in-class self-help and peer-based assistance.

Replace a Traditional Intranet

"When we replaced SharePoint with Jive-n, we got not just an intranet but a social intranet, and it took off like wildfire. It's become the heart and soul of our organization, making us more open and collaborative."

More customers who replaced their traditional intranet with Jive:

marketstar*

Modernize an Existing Intranet

"SharePoint has good document storage and custom list capabilities. Jive is better at supporting information discovery and sharing, discussions, and social interaction. Jive's ability to integrate with SharePoint means we can provide a seamless user experience regardless of which environment you're working in."

Alcatel·Lucent 

More customers who modernized their intranets with Jive:

The McGraw-Hill Companies

Create an Employee Community

"We have completely rebuilt our collaboration and knowledge suite using Jive-n. It's improved productivity and created stronger alignment. Thanks to Jive we created a village with 35,000 people."

More customers with a Jive-based cross-company employee collaboration solution:

Implement Team Collaboration

"Within three weeks we had more Jive-n community users than we had in over two years with a SharePoint team site. It's solved so many problems for Cameron, from communication to effectiveness. I can't believe we didn't do it sooner."
