MPS SERVICES & SOLUTIONS

BUILD

your own customized MPS program using our award-winning mpsSELECT™ solutions and services as your foundation.

CHOOSE

individual services or an all-inclusive Cost-Per-Image package that best fits the needs of you and your customers.

MANAGE

every aspect of your MPS business via our online portal www.MyPrinterManager.com and mobile app, MPM-Mobile. From supply status and detailed reports to webinars and video tutorials, you'll find all the necessary tools to provide a successful MPS program to your customers.

⊕ Access from your computer or the convenience of your mobile device.

MYPRINTERMANAGER.com

mpsSELECT™
patented. predictable. proven.

Data Collection Service
Flexible, simple access to monitor environments without the expense of start-up costs.

Supply Management System
Automatic notification, ordering and fulfillment for monitored devices in need of consumables.

Service Monitoring
Our proprietary 360° DATAbase™ analyzes environments to report devices in need of repair.

Service Desk
End-users report service issues directly to our certified technicians via a toll-free number or online portal.

Supply Routing Label
Ensure the consumables are delivered directly to the device in need with these customized labels. (US PAT. NO. 9,573,807)

Cost-Per-Image Service
This all-inclusive service includes toner and non-toner supplies as well as all mpsSELECT™ services.

Local Device Management
Allows supply order processing for limited support/non-visible devices in current MPS environments.

Device Installation Service
Our team schedules the installation, completes the setup and removes machines where necessary.

Device Tracker
Proactive monitoring to track devices that stop reporting, get removed or are moved within an environment.
