Infrastructure Solutions

Top Reasons Why NetApp Is the Best Storage for Your XenServer Environment

RESPOND TO OPPORTUNITY

To respond to changing business needs, you need to be able to deploy new virtual machines and provision storage for them quickly. Automatically provision storage as you deploy your virtual servers.

Shorten your test and development cycles from weeks to minutes with instantaneous cloning of your virtual machines and by instantly repurposing storage capacity between projects.

Quickly adapt to unexpected storage demands with real-time scalability and the flexibility to support any future SAN or NAS projects (FC, iSCSI, NFS, or CIFS).

MAXIMIZE STORAGE UTILIZATION

Only NetApp enables data deduplication across your primary, backup, and archival storage, reducing your Citrix XenServer storage requirements by 50% to 90%.

Increase your storage utilization to greater than 70% with NetApp thin provisioning. Combined with deduplication it can reduce your power, space, and cooling requirements by 50%.

MANAGE RISK

Protect your XenServer virtual infrastructure and your data with near-instantaneous backups that don't impact performance.

Protect more of your data affordably while delivering higher levels of application availability with our network- and storage-efficient disaster recovery solutions.

Maintain continuous availability of your virtual servers with transparent failover for component and system malfunctions. Recover quickly from unplanned site outages by failing over your VMs directly to backup and DR images.

INCREASE OPERATIONAL EFFICIENCY

Increase the productivity of your XenServer administrators by allowing them to manage storage directly from XenCenter using the storage adapter codeveloped by NetApp and Citrix.

GET THERE FASTER

Experience a smooth transition to your optimal infrastructure with our specialized virtualization services. From assessment to implementation to management, our experienced, certified professionals, using proven methodologies and best practices, can help you get where you want to be, efficiently and with no surprises.

NetApp creates innovative storage and data management solutions that accelerate business breakthroughs and deliver outstanding cost efficiency. Discover our passion for helping companies around the world go further, faster at www.netapp.com.
