

The background image shows a bright, modern retail store. On the left, there are racks of light-colored shirts. In the center and right, there are white and orange display tables with various items on them. Large windows on the right side provide natural light. The ceiling has exposed wooden beams and modern lighting fixtures. The overall atmosphere is clean and contemporary.

ZONES™

Streamline Multi-Location
Technology Deployments with
**Zones' Store and Branch
IT Rollout Services**

First Choice for **IT**®

Executive summary

In today's dynamic business landscape, enterprises with multiple locations face increasing complexity in managing technology deployments, refreshes, and upgrades. Whether you're a retail chain expanding operations, a healthcare network modernizing facilities, a financial institution upgrading branch infrastructure, or a public sector with multiple locations, coordinating technology rollouts across dispersed locations demands precision, expertise, and scalable solutions. Zones Store and Branch Rollout (SBR) services, powered by IntelliPlanSM, deliver end-to-end technology deployment solutions that transform how you handle your rollout initiatives while ensuring operational excellence from start to finish.

Visit [zones.com](https://www.zones.com) or call 800.408.ZONES today.

Multi-Location Technology Challenges

Enterprises operating across multiple locations face critical operational challenges:

- Complex coordination of technology deployments across geographically dispersed sites
- Need for customizable yet standardized solutions for different location types and sizes
- Risk of operational disruption during technology upgrades
- Maintaining consistency and compliance across diverse locations
- Managing inventory and logistics for large-scale deployments
- Limited on-site IT resources and technical expertise
- Coordinating multiple vendors and service providers
- Meeting aggressive timeline requirements for new location openings

How Zones Transforms Your Technology Rollouts

Zones transforms your technology deployment initiatives through our comprehensive Store and Branch IT Rollout services. Our end-to-end technology solutions are designed specifically for multi-location enterprises, ensuring every system and infrastructure component is fully prepared to meet your business goals. With dedicated project managers and smart tools for rollout planning and timeline optimization, we deliver operational excellence with zero disruption.

- Seamless technology infrastructure deployment across stores, clinics, and offices with minimal disruption
- Rapid rollout execution through parallel implementations and standardized processes
- Efficient equipment staging, configuration, and installation with comprehensive pre-deployment testing
- Complete project visibility and real-time status tracking through our IntelliPlanSM platform
- Centralized project control with local execution teams for multi-site implementations
- Consistent implementation procedures across all locations through standardized methodologies
- Standardized processes ensuring consistent implementation across all locations

Our Comprehensive Store and Branch IT Rollout Service Offerings

IntelliPlanSM Platform

A sophisticated technology forecasting and tracking solution that transforms deployment planning through intelligent data management.

- Advanced demand planning to leverage historical data and smart forecasting
- Real-time reporting for streamlined inventory management
- Automated alerts for potential deployment issues
- Collaborative planning capabilities for efficient operations
- Proactive issue identification and resolution

Project Management

Comprehensive oversight ensures seamless, efficient, and strategic technology deployment across your enterprise.

- Dedicated project oversight and coordination
- End-to-end deployment lifecycle management
- Real-time visibility into project status via nterprise
- Resource allocation and timeline optimization
- Risk management and mitigation strategies

White-Glove Deployment Services

Premium, end-to-end logistics, and installation support that guarantees precise, secure, and professional technology implementation.

- Comprehensive inventory management
- Secure warehousing and configuration
- Just-in-time delivery coordination
- Professional on-site installation
- End-to-end logistics management
- Complete chain of custody tracking

Zones offers standardized yet customizable deployment methodologies that ensure consistent technology implementation while accommodating location-specific requirements. This approach delivers measurable business outcomes including accelerated time-to-market, enhanced operational efficiency, standardized technology experiences across all sites, and reduced deployment risks—all while ensuring your stores, branches, and facilities maintain peak performance throughout the transformation process.

Transform Your Business with Zones Store and Branch Rollout Services

Keeping pace with evolving customer expectations requires modern technology solutions. We can help you implement innovative technologies that enhance customer experience and operational efficiency, such as:

- Industry-compliant POS & contactless payment systems for retail
- Secure medical device deployment for healthcare facilities
- Standardized workstation implementation for government offices
- Advanced security and surveillance system installation
- Smart inventory and asset tracking solutions
- Digital signage and self-service kiosk deployment
- Network infrastructure and connectivity solutions
- Regulatory-compliant data management systems
- Cloud-based inventory management solutions
- Smart lockers and pickup solutions

Zones Advantages
