

Why Adobe Sign?

Adobe is the trusted, leading platform for enterprise e-signing and business automation. Adobe Document Cloud, including [Adobe Sign](#), delivers the easiest signing experience, top-rated integrations and complete digital document lifecycle workflows. [Adobe Document Cloud](#) is the only end-to-end digital document automation solution that transforms document processes and **builds great customer experiences.**

Top 5 Reasons to Choose Adobe Sign

1. Simplest signing and superior workflow

- 30% faster than the competition—less clicks and a better signing experience.
- Adobe Sign has phenomenal app store ratings and design awards. Easily send, sign, track and manage from any device.
- Unsurpassed enterprise branding, for customizing with your organization's look and feel.
- Automate end-to-end processes that go beyond signing and approvals with advanced document routing and workflows.
- Visual, easy-to-implement workflow design solutions—from template customization to building standalone web apps.
- Automate and simplify any kind of form using innovative tools such as auto-form field detection and adaptable forms.

2. Unparalleled integrations

- #1 e-signing for Salesforce and the first to innovate with Workday integration.
- Most prebuilt integrations for enterprise applications, with no programming required—including Salesforce, SAP, Microsoft SharePoint and Dynamics CRM, Workday, Saba, Apttus, Box, Dropbox, Google Drive and more.
- Superior integration capabilities including open, flexible REST APIs, with usage at no extra charge.
- More than just e-signing capabilities, Adobe Sign, as part of Adobe Document Cloud, is the world's leading and only end-to-end digital workflow solution to transform digital document processes.
- Integrated into Adobe Acrobat, Adobe Reader, Adobe Creative Cloud, and Adobe Experience Cloud.

3. Trusted and experienced

- One of the most trusted SaaS providers with 6+ billion signature transactions and 71 trillion Adobe Experience Cloud transactions annually.
- Adobe invented PDF and has a history of creating and supporting globally adopted open standards—PDF, [digital signatures](#) in PDF, and cloud-based digital signatures.
- Profitable, stable \$62 billion company with R&D budget of \$976M and over 1000 patents in digital documents.
- Superior uptime—our goal is 99.99% uptime. Hosted in high availability, top-tier data centers around the globe.
- Recognized as one of world's most ethical and green companies.

4. Globally legal and secure

- Adobe has extensive cloud management experience, a worldwide presence and a significant customer and partner ecosystem.
- At Adobe, security is our top priority. Adobe Document Cloud is compliant with ISO 27001:2013, PCI DSS and SOC 2 Type 2 and meets many additional industry-specific compliance requirements such as HIPAA, FERPA, GLBA, and FDA 21 CFR Part 11.
- Adobe Document Cloud delivers the highest levels of compliance and choice. Customers can choose from over 200 digital ID providers globally, and work with open, cloud-based digital signatures on web and mobile.
- Custom storage and retention to satisfy your policies and compliance regulations.

5. Best-in-class enterprise service and support

- Global enterprise service and support, at no extra charge. Up front, transparent pricing for support, onboarding or integrations.
- Most extensive training material—videos, projects and articles.
- Enterprise onboarding and customer success resources that are included with license.
- Worldwide infrastructure, offices in 30+ countries and 34 fully localized versions for senders and signers.
- Global security team, reporting to Adobe's Chief Security Officer, dedicated to building, deploying and monitoring secure applications and services.
