

Workplace Modernization

## Zero Touch Deployment

# Windows 10 and Autopilot

Provide a professional and consistent employee device experience.

**Get started with Windows Autopilot for free!\***

**Join Zones and our industry experts for a one-on-one technical briefing on how Autopilot can streamline your business through zero-touch deployment!**

The first impression your new employee has of their workplace technology is when they turn on their new device. Learn how to leverage the latest technologies in device provisioning, configuration, and enterprise security with Zones and Windows Autopilot.

### WINDOWS AUTOPILOT TECHNICAL BRIEFING.

This one-on-one session gives your team the opportunity to discuss and gain an understanding of the modern workplace and how Autopilot provides premium user experiences at little costs.

**Your technical briefing will last approximately 60 minutes.**

#### **Windows Autopilot for IT**

*Use of Windows Autopilot has skyrocketed over the past several months as more companies are doing zero-touch deployment directly for their remote employees, while retaining investments in SCCM.*

### ENGAGEMENT HIGHLIGHTS:

- Gain an understanding of the modern workplace from a device perspective.
- Learn why a consistent user experience across devices is important.
- Build a roadmap to move from image-based to autopilot-driven provisioning.

### WHY YOU SHOULD ATTEND:

- Learn to reduce overall time for device provisioning.
- Identify how to cut down on the time between ordering and employee productivity.
- Enable consistent employee profiles with managed configurations.
- Configure devices to enforce your security requirements.

### WHO SHOULD ATTEND:

- Device Provisioning Managers
- IT Managers
- IT Security Managers

### Why Customers Utilize Zones and Autopilot

Modernize device provisioning with Autopilot and Zones to:

- Reduce provisioning time and complexity.
- Gain flexibility for role/group provisioning, while maintaining organization security standards.
- Make reprovisioning and reassignment simple.
- Reduce shipping and travel times.
