

Apple Fleet Analysis

Data-driven consultative analysis with an Apple Engineer

Ensure your Apple devices can run the latest OS.

During the Apple Fleet analysis, an Apple Engineer will cover:

- Vintage and obsolete devices that no longer receive OS and security updates.
- Devices eligible for extended AppleCare coverage and out-of-warranty devices.
- Fleet readiness and best practices for Apple intelligence & macOS.
- Devices without a Neural Engine or NPU that cannot run Apple Intelligence.
- Fleet trade-in value to reduce costs and support future.

This analysis will cover your whole Apple Fleet including Mac, iPad, and iPhone.
