Zones Earns Cloud Security Advanced Specialization from Microsoft

Company Recognized for Technical Capabilities to Deliver Specialized Services

Auburn, WA, April 11, 2022 – Zones, LLC, a leading global provider of IT solutions, is pleased to announce it has earned a Microsoft advanced specialization for Cloud Security through the Microsoft Partner Network program. This distinction shows that Zones has proven its technical capabilities to deliver specialized services in a specific solution area.

This advanced specialization, which is valid through March 1, 2023, confirms Zones’ deep technical knowledge, proven experience, and technical capabilities related to Microsoft Cloud Security products. It also reflects Zones’ ability to offer Azure, hybrid, and multi-cloud security solutions to a wide range of clients all over the world.

“Achieving this Cloud Security advanced specialization from Microsoft is a milestone moment for Zones,” said Firoz Lalji, Zones’ Chairman and CEO. “We take cloud security seriously, and it was important for our organization to earn this distinction to show our dedication to the security of our current and future clients. We are proud to work alongside Microsoft to deliver critical services that enable our clients to work anywhere, securely.”

An advanced specialization from Microsoft showcases Zones’ ability to deliver security solutions that are well-designed, high-performing, and repeatable for future Zones clients again and again. Microsoft verified Zones’ expertise using customer references and their own partner

exams, which comprehensively showed Zones' elite ability to deploy and manage cloud security workloads.

With its advanced specialization designation, Microsoft identifies partners with proven capabilities in particular areas of IT. Zones has consistently shown an ability to take part in this process.

Zones has adapted quickly to this new era of remote and hybrid work as a business. We have sought to deliver everything our clients need to survive and thrive in this new environment - including but not limited to device procurement and deployment, cloud storage and data backup, and cybersecurity services. This new Microsoft distinction proves our high level of capability when it comes to guiding our clients, smartly and securely, through their cloud journey.
