Zones Names Jai Venkat as Senior Vice President & Chief Services Officer

New Leader Set to Bolster Global Services and Solutions Capabilities

Auburn, Wash., May 21, 2019 – [Zones, LLC](#), a \$2.3 billion global IT solutions provider, today announced that Jai Venkat has been appointed Senior Vice President & Chief Services Officer. Venkat will be responsible for leading and strengthening Zones global services capabilities through an integrated approach to service delivery and solutions capabilities, providing increased value to clients through digital transformation.

In this role, Venkat will strengthen, augment, and automate solution delivery capabilities and offerings across all client segments. This approach will provide a unified service delivery framework with traditional and next-generation solutions, enabling clients to grow through acceleration of their digital transformation. Venkat will also be a member of the Zones executive leadership team.

“Jai is immensely efficient at managing and driving transformational service delivery capabilities and new business models across multiple vertical industries,” said Derrek Hallock, Chief Operating Officer at Zones. “He will prove to be a valuable member of the leadership team as he boosts global services delivery models and automation. His appointment will be key to driving new business processes, operational excellence, and enhanced client value as we continue to experience growth ahead of market.”

“Zones is strongly positioned to expand its revenue opportunities through existing clients as well as developing new relationships through transformation of the global services delivery model,” said Jai Venkat, Senior Vice President & Chief Services Officer at Zones. “Zones is a proven leader in digital transformation services, and I look forward to the opportunity to further augment global capabilities and add more value to our clients.”

Venkat brings more than 30 years’ experience in sales, operations, delivery, business consulting, and program management to Zones. Prior to joining the company, he held senior executive leadership roles at DXC Technology, HP Enterprise, Cognizant, Capgemini, and Infosys. His extensive leadership and business transformation experience will drive growth across data center transformation, workplace modernization,

network optimization, and security fortification solution environments as Zones continues to become the First Choice for IT™ for its clients.

About Zones
