Zones conforms to the pricing structure and aligns with the category taxonomy. However, Zones will manage the resultant contract according to Zones' Product Category taxonomy indicated above, which shall govern all purchases and provide more breadth and a more complete representation of the Zones Catalog. Al discounts will be applied to the product category listed above to Zones' Nationally Advertised Pricing, publicly verifiable at www.Zones.com.

\*E-rate eligible items depend on OEM approval of E-rate eligible items by USAC and inclusion into USAC's Eligible services list (ESL). E-rate pricing varies by OEM and is updated annually after USAC releases the Eligible Services List. Due to the pricing variables, Zones is offering a minimum percentage off. Additional discounts may be applied.

\*\*For custom service engagements the pricing will be based on Zones quoted price in a mutually executed Statement of Work (SOW) as these are based on the scope and customer's needs. The SOW can be firm fixed or Time & Materials basis, as required.

\*\*\*Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, laaS, and PaaS, among others. Zones' pricing is based on publisher list price (MSRP), where available to Zones. In cases, where MSRP pricing is not available and/or the offering is unique, pricing will be based on Zones quoted price. This structure provides the necessary flexibility to enable USETPA members to make purchase offerings, as cloud offerings evolve through the life of our contract. USETPA and its Members acknowledge that Zones is not the provider of the Cloud Services, and in purchasing the Cloud Services Provider and its members rely only on the Cloud Service Provider to be the party responsible for providin the Cloud Services and USETPA and/or its members, may be required to execute additional agreements, prior to provisioning/purchase of certain cloud offering.

<sup>\*\*</sup>As stated in Category 22 (Twenty-two), cabling projects are custom service engagements. The pricing will be based on Zones' quoted price in a mutually executed Statement of Work (SOW) as these are based on the scope and customer's needs. The SOW can be firm fixed or on a Time & Materials basis, as required, and will be in compliance with state and local laws, codes, and prevailing wage rates.
