

## Network Security Solutions

Security assessment and risk management

### Defend, Protect and Secure

**S**ecuring your network is not a one-time event, but an ongoing discipline. With global cybercrime and network attacks on the rise year after year, it is important now more than ever to have a solid network security solution in place to protect your business. In the 2008 Data Breach Investigations Report, the Verizon Business RISK Team found 83 percent of network attacks were not difficult (highly sophisticated), and 87 percent were considered avoidable through reasonable controls.

Network security is a critical aspect of business and one that we at Zones take very seriously. A proactive approach to security reviews, policies and procedures along with multiple layers of network protection ensure your business runs reliably and efficiently. And by guarding your data against loss, your business will also avoid costly downtime or shutdowns. Trust the Zones team to help secure your network and safeguard your data.

#### Network Security Solutions

The team at Zones Advanced Solutions Group (ASG) is committed to providing your network with comprehensive protection. We partner with the leading network security software and hardware manufacturers to provide a reliable solution that seamlessly integrates with your existing IT environment.

Our holistic approach to network security protects your IT infrastructure with numerous tools ranging from antivirus software, to firewalls, to intrusion prevention systems (IPS). Our engineers have the knowledge, skills and experience required to recognize and mitigate threats and vulnerabilities to networks.

- Ensure network integrity with security software and hardware that act as defense mechanisms against malicious threats and attacks.
- Protect against business disruptions – and lost revenue – caused by virus and hacker attacks.
- Facilitate mobile computing through secure, convenient network access that enables employees to use critical information when they need it, making them more productive away from their desks.
- Secure your organization's most valuable asset, your business data, and reduce the risk of legal actions caused by data thefts.
- Meet mandated regulatory compliance and strengthen enforcement of your security policies.

#### Zones Advanced Solutions Group

#### The Zones Difference is Your Advantage

- Collaborate with our trained and certified engineers
- Apply our business insights to solve IT challenges with innovative solutions
- Reduce the cost of IT through our technology lifecycle expertise
- Choose one source for all professional services – planning, design, delivery and management
